Wedding Chart

Traditional wedding servings are 1x2 slices, if you want to serve bigger slices go for more servings than you need. Prices start at \$3.00 per serving. Fondant is an extra \$20 per tier. Flowers, ribbon and bling are extra. Toppers can be ordered for extra, I do not make wedding toppers. Generally, the bride and groom will save the top tier for their one year anniversary. If you plan to do this, look at the column that says w/o topper for your serving size. You still pay full price as you are still getting all cake but not serving top to your guests, but you want to make sure you have enough servings for your guests.

2 Tier White cake with buttercream filling, covered in fondant with fondant flowers. Heart is covered in sparkling sanding sugar. Servings: 45
